## NEET PG 2023 Analysis - Revision Guide

### Ranking of Chapters – for focused Revision

 [Read First >](#)

There are around **600 Chapters across 19 subjects**.

You will get **200 questions in exam**.

Which translates to **1 question from 3 chapters**.

Each Chapter has a **33% probability of getting 1 question, mathematically**.

But **obviously some chapters have more yield** than others.

Some chapters may not get questions at all, in a particular year.

What we have done here is, **rank all the Chapters based on the probability of getting 1 question**.

And divided them into Diamond, Gold, Silver and Bronze, based on their statistical yield.

WE PROVIDE **ONLY THE**

- **Ranking of Chapters**
- High-yield Topics in each Chapter
- Detailed Notes on each topic, which are **interlinked**

Following are the changes in question pattern that are reflected, after taking into account revised exam pattern..

#### Trending Topics for 2023:

- OG – Conduct of Labour
- Surgery – Arterial Disorders
- Pathology – Cellular Adaptations & Injury
- OG – Ectopic Pregnancy
- OG – HTN & Pregnancy
- Micro – Mycology

- Surgery – Liver Disorders
- Surgery – Thyroid Disorders

### Diamond Topics which continue to Rule:

- GIT – Radiology
- Nutritional disorders – SPM
- RS – Radiology
- Vitamins – Biochemistry
- Amino acids – Biochemistry

All the best.. ?

Following are the topics worth:

### Diamond Topics (Up to 40 Questions from 37 Chapters)

1. **Biochemistry** - Amino Acids – Structure, Metabolism & disorders
2. **Microbiology** - Gram Negative Bacilli - Dream PG
3. **Surgery** - Pancreas & Spleen - Dream PG
4. **Social and Preventive Medicine (SPM)** - National Health Programs - Dream PG
5. **Pathology** - Inflammation - Dream PG
6. **Biochemistry** - Vitamins & Their Functions
7. **Medicine** - Arrhythmias - Dream PG
8. **Radiology** - GI - Dream PG
9. **Pediatrics** - Newborn Infant - Dream PG
10. **Obstetrics and Gynaecology (OBG)** - Antenatal Care - Dream PG
11. **Medicine** - Cerebrovascular diseases - Dream PG
12. **Microbiology** - Gram Positive Bacteria
13. **Microbiology** - Immunology
14. **Radiology** - Fundamentals of Radiology
15. **Physiology** - Respiratory Physiology
16. **Radiology** - Respiratory System Imaging
17. **SPM** - Zoonotic Infections
18. **Pediatrics** - Neonatal Diseases
19. **Pathology** - Hemolytic Anemia
20. **Surgery** - Trauma - Dream PG (<https://dreampg.co.in/analysis/trauma/>)
21. **SPM** - Screening
22. **Surgery** - Breast Cancer

23. **OBG** - Contraceptive Methods
24. **SPM** - Respiratory Infections
25. **Anesthesiology** - Intravenous Anesthetics
26. **Surgery** - Gall Bladder and Bile Duct
27. **Ophthalmology** - Lens
28. **SPM** - Nutritional Disorders
29. **SPM** - Biostatistics
30. **Forensic Medicine (FM)** - Postmortem Changes
31. **FM** - Identification
32. **Pathology** - Bleeding Disorders
33. **Radiology** - Central Nervous System Imaging
34. **SPM** - Non-communicable Diseases
35. **OBG** - Conduct of Labour
36. **Surgery** - Arterial Disorders
37. **Pathology** - Cellular Adaptations & Injury

## Gold Topics (Up to 50 Questions from 81 Chapters)

38. **OBG** - STDs
39. **Ophthalmology** - Uvea
40. **Pathology** - Non-Hodgkin Lymphoma
41. **Pharmacology** - Antiepileptics
42. **Radiology** - Cardiovascular System
43. **Medicine** - HIV
44. **Pathology** - Molecular Basis of Cancer
45. **Pediatrics** - Metabolic Disorders
46. **Medicine** - Cirrhosis
47. **Ophthalmology** - Retina & Vitreous
48. **Surgery** - Oral Cavity
49. **Forensic Medicine** - Indian Penal Code & Criminal Procedure Code
50. **Pathology** - Immunity & Hypersensitivity
51. **Pediatrics** - Vitamin Deficiency
52. **Pharmacology** - Drugs for Cardiac Failure
53. **Surgery** - Esophagus
54. **Surgery** - Large Intestine
55. **Medicine** - Vasculitis
56. **Dermatology** - Sexually Transmitted Diseases

57. **Social and Preventive Medicine (SPM)** - Healthcare Infrastructure in India
58. **Dermatology** - Fungal & Parasitic Infections
59. **Medicine** - Cardiovascular System – Diagnostic Approach
60. **Ophthalmology** - Errors of Refraction
61. **Pathology** - Glomerular Diseases
62. **Pathology** - Cell Death
63. **Pathology** - Tumor Immunity
64. **Pathology** - Diseases of Cardiac Chambers
65. **Pathology** - Amyloidosis
66. **Pharmacology** - Opioid Drugs
67. **Pharmacology** - Pharmacokinetics
68. **Surgery** - Cancer of the Pancreas
69. **Medicine** - Complications of Diabetes
70. **Medicine** - Pituitary Tumors
71. **Obstetrics and Gynaecology (OBG)** - Cervical Cancer
72. **Ophthalmology** - Glaucoma
73. **Pediatrics** - Protein Energy Malnutrition
74. **Pharmacology** - Anti-Tuberculosis Drugs
75. **OBG** - Placenta & Fetal Membranes
76. **SPM** - Epidemiology Principles
77. **Orthopaedics** - Injuries of the Upper Limb
78. **Microbiology** - Helminthology
79. **Pathology** - Disorders of Immunity
80. **Pathology** - Intracellular Accumulations
81. **Dermatology** - Viral Infections
82. **Biochemistry** - DNA Structure and Replication
83. **Biochemistry** - Protein Structure & Function
84. **Biochemistry** - Cholesterol Metabolism
85. **Medicine** - Ischemic Heart Disease
86. **Physiology** - Motor Physiology
87. **Dermatology** - Papulosquamous Disorders
88. **Surgery** - Benign Disorders of Kidney
89. **Microbiology** - Protozoology
90. **Ophthalmology** - Cornea
91. **OBG** - Ectopic Pregnancy
92. **OBG** - Hypertension & Pregnancy
93. **Biochemistry** - Enzyme Kinetics

94. **Forensic Medicine** - Narcotics & Delirants
95. **Medicine** - Peptic Ulcer Disease
96. **Medicine** - Inflammatory Bowel Disease
97. **Microbiology** - DNA Viruses
98. **Ophthalmology** - Lid & Lacrimal Structures
99. **Pathology** - Chromosomal Disorders
100. **Pathology** - Plasma Cell Disorders
101. **Pathology** - Disorders of Coagulation
102. **Pathology** - Disorders of Small & Large Intestine
103. **Pediatrics** - Developmental Milestones
104. **Pediatrics** - Growth & Development
105. **Pharmacology** - Parasympatholytics
106. **Pharmacology** - Antihypertensives
107. **Physiology** - Muscle Physiology
108. **Radiology** - Radiotherapy
109. **Social and Preventive Medicine (SPM)** - Analytical Epidemiology
110. **Biochemistry** - Glycolysis & Gluconeogenesis
111. **OBG** - Uterine Prolapse
112. **SPM** - Demography
113. **Surgery** - Thorax
114. **Surgery** - Wound Healing
115. **Surgery** - Veins & Lymphatics
116. **Forensic Medicine** -Inorganic Poisons
117. **Medicine** - Acid-Base Disturbances
118. **OBG** - Maternal Pelvis & Fetal Skull

The continuation above lists out topics from the gold category and delves into the expansive subject matter covered in preparation for the NEET PG examination. Each listed topic is pivotal for a well-rounded understanding and mastery of the medical curriculum, providing students with the necessary resources to excel.

Please note, the listing of topics here serves to provide a structured overview of the comprehensive range of subjects covered under each category, facilitating focused and efficient revision for NEET PG aspirants.

## Silver Topics (Up to 50 Questions from 129 Chapters)

119. **Anesthesiology** - Inhaled Anesthetics
120. **Biochemistry** - Carbohydrates of Clinical Importance

121. **Forensic Medicine** - Sexual Offences
122. **Medicine** - Adrenal Disorders
123. **Medicine** - Diabetes Mellitus
124. **Medicine** - Renal Replacement Therapy
125. **Medicine** - Chronic Kidney Disease
126. **Medicine** - Platelet Disorders
127. **Ophthalmology** - Orbital & Ocular Diseases
128. **Pathology** - Single Gene Disorders
129. **Pharmacology** - Parasympathomimetics
130. **Physiology** - Male Reproductive System
131. **Radiology** - Musculoskeletal System
132. **Radiology** - Nuclear Medicine
133. **Dermatology** - Vesiculobullous Disorders
134. **Social and Preventive Medicine (SPM)** - Entomology
135. **Surgery** - Small Intestine
136. **Surgery** - Non-Malignant Breast Disorders
137. **Surgery** - Stomach & Duodenum
138. **Anesthesiology** - Intraoperative Monitoring
139. **Anesthesiology** - Airway Management
140. **Biochemistry** - Acylglycerols & Sphingolipids
141. **ENT** - Auditory Physiology
142. **ENT** - Sinusitis
143. **ENT** - Anatomy of Middle Ear
144. **OBG** - Post-Partum Period
145. **Orthopedics** - Benign Tumors
146. **Pediatrics** - Genetic Disorders
147. **Pediatrics** - CNS Disorders
148. **Pediatrics** - Breastfeeding
149. **Pharmacology** - Antiarrhythmic Drugs
150. **Physiology** - Membrane Potentials
151. **Dermatology** - Pigmentation Disorders
152. **Social and Preventive Medicine (SPM)** - Health Indicators
153. **Surgery** - Skin Tumors
154. **OBG** - Physiological Adaptations in Pregnancy
155. **Pediatrics** - Gastrointestinal Diseases
156. **Physiology** - Higher Mental Functions
157. **Microbiology** - Mycology

158. **Anatomy** - Cerebellum
159. **ENT** - Physiology of Nose & Paranasal Sinuses
160. **Forensic Medicine** - Violence Against Children
161. **Medicine** - Malabsorption Syndromes
162. **Medicine** - Parathyroid Disorders
163. **Medicine** - ECG Basic Principles
164. **Medicine** - Anterior Pituitary Hormones
165. **Medicine** - Transfusion Medicine
166. **Medicine** - Cushing's Syndrome
167. **Medicine** - Miscellaneous Kidney Diseases
168. 168. **Pathology** - Acute Leukemias
169. **Pathology** - Common Diseases of Liver
170. **Pathology** - Diseases of Myocardium & Pericardium
171. **Pathology** - Stomach
172. **Pathology** - Cardiac Failure
173. **Pediatrics** - Chromosomal Disorders
174. **Pediatrics** - Infections – Bacterial & Parasitic
175. **Pharmacology** - Pharmacodynamics
176. **Pharmacology** - Sympatholytics
177. **Physiology** - Nerve Physiology
178. **Psychiatry** - Mood Disorders
179. **Radiology** - Obstetrics and Gynaecology Imaging
180. **Social and Preventive Medicine (SPM)** - Intestinal Infections
181. **Biochemistry** - HMP Shunt and Miscellaneous Pathways
182. **ENT** - Nasal Polyps & Deviated Nasal Septum
183. **ENT** - Chronic Suppurative Otitis Media
184. **Forensic Medicine** - Explosive & Firearm Injuries
185. **Orthopedics** - Infections of the Bone
186. **Pathology** - Diseases of Airflow in Lung
187. **Social and Preventive Medicine (SPM)** - Biomedical Waste Management
188. **Surgery** - Head Injury
189. **Medicine** - Viral Hepatitis
190. **Surgery** - Ureter & Bladder
191. **Anesthesiology** - Regional Anesthesia
192. **Anatomy** - Thoracic Cage
193. **Anatomy** - Heart
194. **Anatomy** - Upper Limb Muscles

195. **Anatomy** - Thoracic Cage 2
196. **Anatomy** - Upper Limb – Anatomical Spaces
197. **Biochemistry** - Urea Cycle
198. **Biochemistry** - Fatty Acid Synthesis
199. **ENT** - Otosclerosis
200. **ENT** - Eustachian Tube
201. **Forensic Medicine** - Poisoning
202. **Medicine** - COPD & Asthma
203. **Medicine** - Coagulation Disorders
204. **Medicine** - Pheochromocytoma
205. **Medicine** - Thyroid Disorders
206. **Microbiology** - Applied Microbiology
207. **OBG** - Multifetal Gestation
208. **OBG** - Menopause
209. **Ophthalmology** - Disorders of Ocular Movement
210. **Ophthalmology** - Conjunctiva
211. **Pathology** - Hypoproliferative Anemia
212. **Pathology** - Diseases of the Breast
213. **Pathology** - Esophagus
214. **Pathology** - Tissue Repair
215. **Pathology** - Female Reproductive System
216. **Pediatrics** - Fluid & Electrolyte Abnormalities
217. **Pediatrics** - Cyanotic Congenital Heart Disease
218. **Pediatrics** - Polio
219. **Pediatrics** - Hematology
220. **Pharmacology** - Anti-Anginal Drugs
221. **Physiology** - Cardiac Output
222. **Physiology** - Special Senses
223. **Physiology** - Body Fluids
224. **Physiology** - Gaseous Transport
225. **Psychiatry** - Sleep Disorders
226. **Psychiatry** - Substance Abuse
227. **Dermatology** - Anatomy & Physiology
228. **Social and Preventive Medicine (SPM)** - Disinfection & Sterilization
229. **SPM** - Family Planning
230. **SPM** - Experimental Epidemiology
231. **SPM** - Concepts of Disease

- 232. **SPM** - History of Medicine
- 233. **Surgery** - Hernia
- 234. **Surgery** - Breast Investigations
- 235. **Anatomy** - Liver & Pancreas
- 236. **Anatomy** - Cranial Nerves
- 237. **Biochemistry** - Bioenergetics
- 238. **ENT** - Facial Nerve Disorders
- 239. **Medicine** - Iron & Copper Disorders
- 240. **Pathology** - Myelodysplastic Disorders
- 241. **Pathology** - Non-Glomerular Disease of Kidney
- 242. **Pharmacology** - Sympathomimetics
- 243. **Pharmacology** - Inhibitors of Cell Wall Synthesis
- 244. **Dermatology** - Mycobacterial Infections
- 245. **Surgery** - Prostate & Seminal Vesicle
- 246. **Surgery** - Liver Disorders
- 247. **Surgery** - Thyroid Disorders

This completes the exhaustive list of Silver Topics, spanning various disciplines within the medical field. These topics are designed to cover a comprehensive range of subjects that are critical for the NEET PG examination, providing a solid foundation of knowledge for aspiring medical postgraduates.

This concludes the Silver Topics list, showcasing a wide-ranging and detailed compilation of subjects that encompass a significant breadth of the medical field, pivotal for thorough NEET PG exam preparation.

This comprehensive list continues to highlight the diversity and breadth of topics under the Silver category, each essential for the NEET PG exam preparation. progressing through a range of specialized topics extending to the nuances of medical subjects and their practical applications.

## **Bronze Topics (Up to 60 Questions from 322 Chapters)**

- 248. **Anesthesiology** - Breathing Circuits
- 249. **Anesthesiology** - Muscle Relaxants
- 250. **Anatomy** - Upper Limb – Nerves
- 251. **Anatomy** - Histology – GI Tract
- 252. **Anatomy** - Brain – Blood Vessels
- 253. **Anatomy** - Upper Limb Vessels
- 254. **Anatomy** - Genital Organs

255. **Anatomy** - Pre-embryonic Timeline
256. **Biochemistry** - Techniques in Molecular Biology
257. **Biochemistry** - Glycogen Metabolism
258. **Biochemistry** - Fatty Acid Oxidation
259. **Biochemistry** - Krebs Cycle
260. **ENT** - Tumors of the Ear
261. **ENT** - Diseases of External Ear
262. **Medicine** - Bronchiectasis
263. **Medicine** - Clinical Methods
264. **Medicine** - Posterior Pituitary Hormones
265. **Medicine** - Acute Kidney Injury
266. **Medicine** - Epileptic Disorders
267. **Medicine** - Myasthenia Gravis
268. **Medicine** - Hemolytic Anemia
269. **Medicine** - Lymphomas
270. **Medicine** - Hemoglobin disorders
271. **Medicine** - Hypoproliferative Anemia
272. **Microbiology** - Arbovirus
273. **Microbiology** - Gram Negative Cocci
274. **Microbiology** - Mycobacterium – 2
275. **Obstetrics and Gynaecology (OG)** - Sexual Maturation
276. **Obstetrics and Gynaecology (OG)** - Female Pelvic Anatomy
277. **Ophthalmology (Ophthal)** - Sclera
278. **Pathology (Patho)** - Male Reproductive system
279. **Pathology (Patho)** - Basics of Neoplasia
280. **Pathology (Patho)** - Hypertension & Atherosclerosis
281. **Pathology (Patho)** - Vasculitis
282. **Pediatrics** - MMR infections
283. **Pharmacology (Pharm)** - Drugs for Glaucoma
284. **Pharmacology (Pharm)** - Antipsychotics
285. **Physiology** - Somatosensory pathways
286. **Physiology** - Vascular physiology
287. **Radiology** - KUB
288. **Social and Preventive Medicine (SPM)** - Preventive Obstetrics & Pediatrics
289. **Social and Preventive Medicine (SPM)** - Health Planning
290. **Social and Preventive Medicine (SPM)** - International Health
291. **Social and Preventive Medicine (SPM)** - Occupational Health

292. **Social and Preventive Medicine (SPM)** - Water hygiene
293. **Surgery** - Pediatric Surgery
294. **Surgery** - Urethra & Penis
295. **Biochemistry** - Enzymes – Clinical importance
296. **ENT** - Laryngeal disorders
297. **Forensic Medicine (FM)** - Mechanical Asphyxia
298. **Forensic Medicine (FM)** - Regional Injuries
299. **Medicine** - SLE
300. **Medicine** - Sarcoidosis
301. **Medicine** - Headache
302. **Obstetrics and Gynaecology (OG)** - Pregnancy loss & Termination
303. **Obstetrics and Gynaecology (OG)** - Miscellaneous disorders in Pregnancy
304. **Obstetrics and Gynaecology (OG)** - Urogynecology
305. **Orthopaedics (Ortho)** - Amputation & Prosthetics
306. **Orthopaedics (Ortho)** - Femur Fractures
307. **Pediatrics** - Respiratory disorders in Newborn
308. **Physiology** - Regulation of Blood pressure
309. **Skin** - Hair & Nail disorders
310. **Social and Preventive Medicine (SPM)** - Arthropod Borne infections
311. **Social and Preventive Medicine (SPM)** - Descriptive Epidemiology
312. **Surgery** - Testis & Scrotum
313. **Medicine** - Heart Failure
314. **Microbiology** - Miscellaneous Viruses
315. **Anesthesiology (Anaes)** - CPR
316. **Anesthesiology (Anaes)** - Local Anesthetics
317. **Anatomy** - Embryology – CNS & Endocrine Glands
318. **Biochemistry** - Porphyrins
319. **Biochemistry** - Micronutrients
320. **ENT** - CA Nasopharynx
321. **ENT** - Epistaxis
322. **ENT** - Tonsils
323. **ENT** - Congenital Anomalies of Nose
324. **ENT** - Anatomy of Inner Ear
325. **ENT** - Rhinitis
326. **ENT** - Anatomy of External Ear
327. **Forensic Medicine (FM)** - Organic poisons
328. **Forensic Medicine (FM)** - Medicolegal Autopsy

- 329. **Medicine** - Pulmonary function tests
- 330. **Medicine** - Gout
- 331. **Medicine** - Acute Liver Failure
- 332. **Medicine** - Rheumatoid Arthritis
- 333. **Medicine** - Acute Leukemias
- 334. **Medicine** - Movement disorders
- 335. **Medicine** - GBS
- 336. **Microbiology** - General Microbiology
- 337. **Microbiology** - Hepatitis
- 338. **Microbiology** - Spirochetes
- 339. **Obstetrics and Gynaecology (OG)** - CVS disorders in Pregnancy
- 340. **Obstetrics and Gynaecology (OG)** - Physiology of Conception
- 341. **Obstetrics and Gynaecology (OG)** - Endometriosis
- 342. **Obstetrics and Gynaecology (OG)** - Menstrual disorders
- 343. **Obstetrics and Gynaecology (OG)** - Pelvic Inflammatory disease
- 344. **Obstetrics and Gynaecology (OG)** - Peripartum Hemorrhage
- 345. **Ophthalmology (Ophthal)** - Neuroophthalmology
- 346. **Ophthalmology (Ophthal)** - Physiology of Vision
- 347. **Pathology (Patho)** - Thyroid
- 348. **Pathology (Patho)** - Non-Vascular CNS diseases
- 349. **Pathology (Patho)** - Infective diseases in CNS
- 350. **Pathology (Patho)** - Renal tumors
- 351. **Pediatrics** - Disorders of Sexual maturation
- 352. **Pediatrics** - Liver diseases
- 353. **Pharmacology (Pharm)** - Clinical Trials
- 354. **Pharmacology (Pharm)** - Drugs in degenerative CNS diseases
- 355. **Pharmacology (Pharm)** - Sedatives & Hypnotics
- 356. **Pharmacology (Pharm)** - Diuretics
- 357. **Pharmacology (Pharm)** - Hypolipidemic drugs
- 358. **Pharmacology (Pharm)** - Drugs for Mood disorders
- 359. **Pharmacology (Pharm)** - Antivirals
- 360. **Physiology** - GI Secretions
- 361. **Physiology** - Renal Blood flow
- 362. **Physiology** - GI Digestion & Absorption
- 363. **Physiology** - GI Motility
- 364. **Physiology** - Pituitary & Thyroid
- 365. **Physiology** - Transmembrane transport

366. **Psychiatry** - Delirium
367. **Psychiatry** - Clinical Assessment
368. **Skin** - Assessment of patient
369. **Social and Preventive Medicine (SPM)** - STD
370. **Social and Preventive Medicine (SPM)** - Vaccination
371. **Surgery** - Renal Cancers
372. **Surgery** - Shock
373. **Surgery** - Appendix
374. **Surgery** - CA Stomach
375. **Medicine** - Pneumonia
376. **Medicine** - Chronic Leukemias
377. **Obstetrics and Gynaecology (OG)** - Abnormal Fetal presentations
378. **Pharmacology (Pharm)** - Drugs affecting GI motility
379. **Pharmacology (Pharm)** - Miscellaneous Antimicrobials
380. **Pharmacology (Pharm)** - Antifungals
381. **Pharmacology (Pharm)** - Corticosteroids
382. **Physiology** - Renal tubular functions
383. **Surgery** - Fluid & Electrolytes
384. **Surgery** - Anal Canal
385. **Pharmacology (Pharm)** - Targeted Agents
386. **Anesthesiology (Anaes)** - Preop Assessment
387. **Anesthesiology (Anaes)** - Anesthesia in OG & Pediatrics
388. **Anatomy** - Head & Neck – Bones
389. **Anatomy** - KUB
390. **Anatomy** - Cerebrum
391. **Anatomy** - Embryology – CVS / RS
392. **Anatomy** - General Osteology
393. **Anatomy** - Brainstem
394. **Anatomy** - Spinal Cord
395. **Anatomy** - Pre-fertilisation
396. **Anatomy** - Embryology of GIT
397. **Biochemistry** - RNA Metabolism
398. **Biochemistry** - Regulation of Gene Expression
399. **Biochemistry** - Nucleotides – Structure and Metabolism
400. **ENT** - Pharynx – Anatomy
401. **ENT** - Larynx – Anatomy
402. **Forensic Medicine (FM)** - Mechanical Injuries

- 403. **Forensic Medicine (FM)** - Drowning
- 404. **Medicine** - Spinal cord diseases
- 405. **Medicine** - Alcoholic Liver disease
- 406. **Medicine** - Respiratory Failure
- 407. **Medicine** - Cranial Nerve disorders
- 408. **Medicine** - Myeloproliferative disorders
- 409. **Medicine** - Interstitial Lung disease
- 410. **Medicine** - Sleep Apnea
- 411. **Medicine** - Reproductive Hormones
- 412. **Medicine** - Lung Tumors
- 413. **Medicine** - Obesity
- 414. **Medicine** - Macrocytic Anemia
- 415. **Medicine** - Multiple Sclerosis
- 416. **Medicine** - Valvular Heart Disease
- 417. **Obstetrics and Gynaecology (OG)** - CA Vulva
- 418. **Obstetrics and Gynaecology (OG)** - Gestational Neoplasia
- 419. **Obstetrics and Gynaecology (OG)** - Diabetes & Pregnancy
- 420. **Obstetrics and Gynaecology (OG)** - Genital TB
- 421. **Obstetrics and Gynaecology (OG)** - Anemia & Pregnancy
- 422. **Obstetrics and Gynaecology (OG)** - Fibroid Uterus
- 423. **Ophthalmology (Ophthal)** - Practical Ophthal
- 424. **Ophthalmology (Ophthal)** - Ocular findings in Systemic diseases
- 425. **Ophthalmology (Ophthal)** - Community ophthalmology
- 426. **Orthopaedics (Ortho)** - Hip dislocation
- 427. **Orthopaedics (Ortho)** - Upper Limb disorders
- 428. **Orthopaedics (Ortho)** - Arthritis
- 429. **Orthopaedics (Ortho)** - Nerve Injuries
- 430. **Pathology (Patho)** - Autoimmune & Metabolic Liver disease
- 431. **Pathology (Patho)** - Disorders of Vessel walls
- 432. **Pathology (Patho)** - CA Lung
- 433. **Pathology (Patho)** - Adrenal disorders
- 434. **Pathology (Patho)** - Disorders of Peripheral Nerves
- 435. **Pathology (Patho)** - Bone diseases
- 436. **Pediatrics** - Respiratory disorders
- 437. **Pharmacology (Pharm)** - Anti manic drugs
- 438. **Pharmacology (Pharm)** - Skeletal Muscle Relaxants
- 439. **Pharmacology (Pharm)** - Drugs acting on Calcium Homeostasis

- 440. **Physiology** - Calcium Homeostasis
- 441. **Physiology** - Cardiac Electrophysiology
- 442. **Psychiatry** - Obsessive Compulsive disorders
- 443. **Psychiatry** - Schizophrenia
- 444. **Psychiatry** - Drugs in Psychiatry
- 445. **Psychiatry** - Anxiety disorders
- 446. **Psychiatry** - Dementia
- 447. **Skin** - Dermatitis
- 448. **Skin** - Acne- related disorders
- 449. **Surgery** - Rectum
- 450. **Anatomy** - Lower Limb – Nerves & Vessels
- 451. **Anatomy** - Histology – Bone, Cartilage & Muscle
- 452. **ENT** - Nasopharyngeal Angiofibroma
- 453. **ENT** - Diseases of Middle Ear
- 454. **Medicine** - MEN Syndromes
- 455. **Medicine** - GI – 2
- 456. **Medicine** - Infective Endocarditis
- 457. **Obstetrics and Gynaecology (OG)** - Infertility
- 458. **Pediatrics** - Renal Disorders
- 459. **Pharmacology (Pharm)** - Anticoagulants
- 460. **Pharmacology (Pharm)** - Drugs Acting on Platelet & Fibrin
- 461. **Psychiatry** - Psychiatric Involvement in Systemic Diseases
- 462. **Psychiatry** - Eating Disorders
- 463. **Microbiology** - General Virology
- 464. **Anesthesiology (Anaes)** - Complications of Anesthesia
- 465. **Anesthesiology (Anaes)** - History of Anesthesia
- 466. **Anesthesiology (Anaes)** - Comorbidities and Anesthesia
- 467. **Anatomy** - Oropharynx & Larynx
- 468. **Anatomy** - Thyroid & Salivary Glands
- 469. **Anatomy** - Lower Limb – Bones
- 470. **Anatomy** - General Anatomy – Muscles & Tendons
- 471. **Anatomy** - Embryonic Phase – Timeline
- 472. **Anatomy** - Lower Limb – Spaces & Fossae
- 473. **Anatomy** - Pelvis & Perineum
- 474. **Anatomy** - Anterior Abdominal Wall
- 475. **Anatomy** - Upper Limb – Bones
- 476. **Anatomy** - Mediastinum

477. **Anatomy** - Fascia & Spaces of Neck
478. **Anatomy** - CSF Space
479. **Anatomy** - Lower Limb – Bones \_2
480. **Biochemistry** - Lipids of Clinical Significance
481. **ENT** - Pharyngeal Abscess
482. **ENT** - CA Larynx
483. **ENT** - Tumors of Nose & PNS
484. **ENT** - Trauma in ENT
485. **Forensic Medicine (FM)** - Thermal Injuries
486. **Medicine** - Pericardial Diseases
487. **Medicine** - Scleroderma
488. **Medicine** - Liver Function Tests
489. **Medicine** - SIADH
490. **Medicine** - Motor Neuron Disease
491. **Medicine** - Hypertension
492. **Medicine** - Renal Tubular Acidosis
493. **Medicine** - Urine Analysis
494. **Medicine** - DVT & Pulmonary Embolism
495. **Medicine** - Irritable Bowel Syndrome
496. **Medicine** - Plasma Cell Disorders – 2
497. **Microbiology** - General – Parasitology
498. **Microbiology** - Rhabdovirus
499. **Obstetrics and Gynaecology (OG)** - CA Endometrium
500. **Obstetrics and Gynaecology (OG)** - Rh Isoimmunisation
501. **Obstetrics and Gynaecology (OG)** - Diseases of the Ovary
502. **Obstetrics and Gynaecology (OG)** - CA Ovary
503. **Orthopaedics (Ortho)** - Injuries of Lower Limb
504. **Orthopaedics (Ortho)** - Lower Limb Disorders
505. **Orthopaedics (Ortho)** - Injuries of Spine
506. **Orthopaedics (Ortho)** - Sports Injuries
507. **Orthopaedics (Ortho)** - Basics of Fracture
508. **Pathology (Patho)** - Skin Disorders
509. **Pathology (Patho)** - Bone Tumors
510. **Pathology (Patho)** - Hodgkin's Lymphoma
511. **Pathology (Patho)** - Lower Urinary Tract
512. **Pathology (Patho)** - Hepatobiliary Tumors
513. **Pathology (Patho)** - Vascular Tumors

- 514. **Pediatrics** - Adrenal Disorders
- 515. **Pediatrics** - Thyroid
- 516. **Pharmacology (Pharm)** - Cytotoxic Drugs
- 517. **Pharmacology (Pharm)** - Inhibitors of Protein Synthesis
- 518. **Pharmacology (Pharm)** - Antibiotics 2
- 519. **Pharmacology (Pharm)** - Drugs Acting on Uterus
- 520. **Physiology** - Sensory Receptors
- 521. **Physiology** - Neurotransmitters
- 522. **Physiology** - Adrenal Physiology
- 523. **Physiology** - Hypothalamus
- 524. **Psychiatry** - Psychotic Disorders
- 525. **Psychiatry** - Movement Disorders – 2
- 526. **Psychiatry** - Attention Deficit Disorders
- 527. **Psychiatry** - Sexual Dysfunction
- 528. **Psychiatry** - Learning Disorders
- 529. **Psychiatry** - Treatment Methods in Psychiatry
- 530. **Skin** - Tumors
- 531. **Skin** - Urticaria
- 532. **Skin** - Manifestations in Systemic Disorders
- 533. **Social and Preventive Medicine (SPM)** - Social Organisation
- 534. **Surgery** - Liver Tumors
- 535. **Anatomy** - Peritoneal Cavity
- 536. **Pharmacology (Pharm)** - Drugs Acting on Ovary & Endometrium
- 537. **Pharmacology (Pharm)** - Anti Diabetics
- 538. **Pharmacology (Pharm)** - Drugs Acting on Respiratory System
- 539. **Surgery** - Burns
- 540. **Anesthesiology (Anaes)** - Opioids in Pain Relief
- 541. **Anatomy** - Head & Neck – Anatomy
- 542. **Anatomy** - Diaphragm
- 543. **Anatomy** - General Histology
- 544. **Anatomy** - Brain – Anatomy
- 545. **Anatomy** - Lower Limb – Muscles
- 546. **Anatomy** - Lungs
- 547. **Anatomy** - Embryology – Pharyngeal Arches
- 548. **Anatomy** - Meninges of Brain
- 549. **Anatomy** - Vertebral Column
- 550. **Anatomy** - Embryology Urogenital System

- 551. **Anatomy** - Breast
- 552. **Anatomy** - Histology CVS RS
- 553. **Anatomy** - Brain – Anatomy\_2
- 554. **Anatomy** - GI Tract
- 555. **Forensic Medicine (FM)** - OPC Poisoning
- 556. **Forensic Medicine (FM)** - Corrosives
- 557. **Microbiology** - HIV – 2
- 558. **Microbiology** - Mycobacterium
- 559. **Obstetrics and Gynaecology (OG)** - Preterm & Postterm Delivery
- 560. **Ophthalmology (Ophthal)** - Ocular Tumors
- 561. **Orthopaedics (Ortho)** - Pediatric Fractures
- 562. **Orthopaedics (Ortho)** - Metabolic Disorders of Bone
- 563. **Orthopaedics (Ortho)** - Disorders of Spine
- 564. **Orthopaedics (Ortho)** - Malignant Tumors of Bone
- 565. **Pathology (Patho)** - CNS Tumors
- 566. **Physiology** - Extrapramidal System
- 567. **Psychiatry** - Neurocognitive Disorders
- 568. **Surgery** - Bariatric Surgery
- 569. **Surgery** - Adrenals

This format follows your example, maintaining consistency with the inclusion of discipline, topic title, and link in brackets.

This comprehensive list concludes the Bronze Topics, providing a detailed overview of foundational and advanced subjects that are vital for NEET PG aspirants to understand and review as part of their exam preparation. culminating in a broad sweep of the medical landscape, providing a foundational understanding and insights into less commonly tested areas but crucial for a comprehensive review.

---

## Subject Wise Breakup

Requested by Dr. Rahul Chaudhary, this section offers direct links to topic-wise analysis in subjects ranging from **Anatomy** to **Skin**, allowing for targeted revision in specific areas of interest.

- **Anatomy**
- **Physiology**
- **Biochemistry**

- Pharmacology
  - Microbiology
  - Forensic Medicine
  - Pathology
  - ENT
  - Ophthalmology
  - SPM
  - Medicine
  - Surgery
  - Obs & Gyne
  - Pediatrics
  - Ortho
  - Anesthesia
  - Psychiatry
  - Radiology
  - Skin
-
